Since January 20, 2025, the Trump administration, along with Elon Musk and DOGE, have demonstrated their disdain for Federal workers through a

series of Executive Orders and other actions. Multiple "Fork in the Road" offers and a 100% return to office sends the message they are applying maximum trauma to force as many tax professionals out the door as possible, with no consideration of the consequences to taxpayers or the organizations they serve.

By banding together as a national network of tax professionals, we are in a unique position to offer you the benefit of thousands of years of IRS experience to maximize your tax savings and provide effective support for navigating any IRS interaction.
