HireXFed: Individually we are Valuable. Collectively, we are Unstoppable!

Add Your Years of Experience and Expertise to the Network.

Whether you ended your Federal career prematurely due to Donald Trump and DOGE's thoughtless attacks or any other reason, and you want to help both the Nation and your fellow former Federal Employees succeed, join the Nationwide Network. Adding your years of experience and expertise will be valuable as the Federal Government begins to rebuild after the sudden and disastrous departures of thousands of experienced federal employees.

As a Network member, you will be an independent contractor who determines your own work schedule and projects. Projects will be offered, as available, according to each member's specific knowledge and experience. As independent contractors, members are also afforded applicable business deductions according to existing tax laws.

While the initial workflow may amount to little more than a side hustle, there is expected to be a sharp increase in available work for the members as the true repercussions of this Administration's destructive actions are realized.

Finally, the Network provides customers (e.g. Federal contractors, taxpayers, etc..) with a consolidated and separate pool of knowledge to leverage on an ad hoc basis. Similarly, Members can leverage knowledge of the entire Network while keeping a larger percentage of profits due to low operating costs.

To learn more about the specific Network divisions, click the applicable Member page:

Income Taxes (IRS)

Members provide services for anything related to Income Tax.

Data Systems
